

**Going Google Lesson 5... Slides (60 minutes)** <http://sacsgoogle.weebly.com/>

Think about a Power Point presentation that allows groups of students to work together collaboratively. It is a presentation that can be started at school, and finished at home. Remember it is all in the cloud. Best of all when it comes to presenting... there is no switching of computers and flash drives because all presentations are with you in your cloud. With Google Slides, you and your students can easily create, share and edit online presentations. (60 minutes)

**Learning Targets**

- Understand what Google Slides are
- Develop techniques to use Slides in the classroom
- Use Slides in a basic way

**Step 1 Slide Capabilities and Possibilities (15 minutes)**

Please read the items and watch the video (<http://youtu.be/bt9F7tKcZcU>) and begin thinking how you can use Google Slides in your classroom. As you watch the video realize that this was all made just using Google Slides. When you have read the items, watched the video begin thinking how you can use Google Slides in your classroom, please be ready to share with others. Enjoy!

Here are some things that you can do as a teacher that come from the Google Teacher Training Site.

- Share presentations with your students and coworkers
- Upload and even convert your existing presentations to Google Drive format
- Download your presentations as PDF files, Power Points, or Text Files
- Insert images and videos, and format your slides
- Publish and embed your presentations in a website, allowing access to a wide audience
- Draw organizational charts, flowcharts, design diagrams and much more within a presentation
- Add slide transitions, animations and themes to create show-stopping presentations
- Let your Slides be learning tools for your students

Google Drive Slides also allows you to collaborate with others to build a compelling story that captivates your audience. Creating presentations together is easy because you can:

- See exactly what others are working on with colorful presence markers
- Edit a presentation with other people simultaneously from different locations
- Use revision history to see who made changes or to revert to earlier versions
- Say hello, start a conversation or share new ideas using built-in chat
- Use the comments feature to provide asynchronous feedback on slides

### Step 2 Slide Capabilities and Possibilities (15 minutes)

Please watch this video (<http://youtu.be/OQAsXVKvx8s>) and learn how to create and use the tools in Google Slide. Experiment with some of the different things you have learned from the video. When you are finished get with a partner and create a Google Slide Presentation. Make sure collaborate using at least two machines.

### Step 3 Differentiation Time - (15 minutes) ...Learning More about Sheets

Take a moment to watch one video or all the videos below. Once you have done that begin thinking about how you might use something you have learned in the classroom. Perhaps you wish to get busy with it now

- Video 1 ... Tips and Tricks with Slides (<http://youtu.be/RdKuNrGapco>)
- Video 2 ... Make an eBook using slides (<http://youtu.be/npGmmKsaRXQ>)
- Video 3 ... Tips for Making Strong Google Slide Presentations (<http://youtu.be/8YLA9-Q3B4>)
- Video 4 ... Pecha Kucha Presentations with Google Slide (<http://youtu.be/dYOLZuw-b00>)

### Step 4 - (15 minutes) – Connection and Application Time

- Watch another Differentiation Video
- Work on a class idea
- Practice some more
- Be ready to share ideas
